| VIS 2101Y | Curatorial Studies Exhibition Project - Culminating in an Exhibition |
| VIS 2102HF | Curatorial Collaboration |

Electives

+ 1.5 FCE Elective Courses*

Notes

*1.0 Full course equivalents (FCE) at the graduate level in a discipline relevant to the study and production of contemporary art, selected in consultation with the student's advisor and subject to the approval of the MVS Program Director.

**An internship at a cultural institution taking place during May-August between first and second year of study.

Internship Requirement

The Internships will provide MVS participants with important networking opportunities with the many cultural communities in Toronto and beyond. In working with the host institution to develop and implement a project for the internship, the participants will also acquire first hand knowledge of professional contemporary art practices as embodied in both institutional and non-traditional venues. This shared experience within the art community will enrich research into and discussion of the theories explored in the seminars.
