Senior Seminar Research & Thesis

Through individual and group efforts, students will address a collective topic of critical importance to the disciplines of architecture, landscape architecture, and urban design within areas of faculty expertise.

This course gives students experience in engaging a multidisciplinary urban problem that spans the design, history and theory, and technology of the design disciplines. It is a team-oriented project-based course in which students will develop a collaborative project.

Please check only one box below. You may only apply for the courses that pertain to your current Program of Study.

Design Specialist

ARC461H – Senior Seminar (Research) for Design Specialists &

ARC462Y – Senior Seminar (Thesis) for Design Specialists

Technology Specialist

ARC486H – Senior Seminar (Research) for Technology Specialists &

ARC487Y – Senior Seminar (Thesis) for Technology Specialists

History & Theory Specialist

ARC456H – Senior Seminar (Research) for History & Theory Specialists &

ARC457Y – Senior Seminar (Thesis) for History & Theory Specialist

In the textbox below, please write a statement indicating why you are interested in enrolling in thesis & your objectives in 300-500 words.

Additional Opportunity: Multidisciplinary Urban Capstone Design Course

Multidisciplinary Urban Capstone Design course projects are assigned to a team of 4th year undergraduates drawn from different disciplines at the University of Toronto. Student teams work through a creative, iterative and open-ended design process for the academic year (September – April), to design solutions to meet client needs.

All projects are sourced from cities, community groups and non-governmental organizations for whom the project addresses a real urban challenge and requires a multidisciplinary approach to solve.

Please note that this opportunity is highly competitive, and a limited number will be selected. Capstone nominees will be asked (later in June) to complete an additional application.

Check the box below to indicate if you are interested in participating in the following opportunity:

School of Cities Multidisciplinary Capstone/ Thesis course
